

Agnitio iPlanner Version 1.11.6 (drop release) - Release Notes

Submitted to the App Store on Thursday, September 30th 2013

Notice

The content in this document represents the current view of Agnitio as of the date of publication. Because Agnitio responds continually to changing market conditions, this document should not be interpreted as a commitment on the part of Agnitio. Agnitio cannot guarantee the accuracy of any information presented after the date of publication.

What's New in this Release

Bugfixes:

- A number of alterations and fixes have been put into place, to make the application less sensitive to slow or unstable connections to the server. Slow or congested connections (typically 3G) could cause time-outs, with various unintended effects on the user interface
- An issue that could cause presentation-synchronisation to freeze has been fixed
- An issue that could cause the user manual to become unavailable has been fixed
- An issue that could cause the sign-out button to become unresponsive has been fixed
